Projects:

1. Todo App.
Description: The To-Do app is a tool designed to help users organize their daily tasks and improve their productivity. The app allows users to easily add, edit, and delete tasks. The app features a simple and user-friendly interface, making it easy for users to track and manage their tasks effectively.
Technologies used: HTML, CSS, Vanilla JavaScript.
2. E-commerce.
Description: E-Commerce app is an integrated online platform for buying and selling products online, providing a seamless shopping experience for users. The app allows customers to browse products, add them to the shopping cart, complete payments, and track orders with ease.
Technologies used: HTML, CSS, React.js, redux, Router.
